

Rate & Review

How to rate workers and add them to your Worker Pool

Rating workers is a great way to retain your best workers, helping you to build lasting and trusted relationships.

How it works

Once the Flexer completes their job, you need to approve their timesheets. At this stage, you will be prompted to "Rate & Review" in order to provide your feedback on the Flexer.

Here's what each rating means:

5 stars

Automatically adds the Flexer to your pool, which you can access through the "Workers" tab. New jobs will be offered to these Flexers first.

3 stars

Removes the Flexer from future jobs and blocks their access to view future jobs.

1 star

Indicates worker misconduct and gross misconduct, allowing you to report them.

Benefits of 5-star ratings:

- Instantly access and choose from a pool of high quality, committed Flexers.
- Overcome last minute fulfillment demands at speed through your trusted worker pool.
- Increase worker retention, saving you time and money on retraining.

With such remarkable outcomes, why wait?

Put the power of rating Flexers to the test now by visiting the Timesheets tab on the client portal.

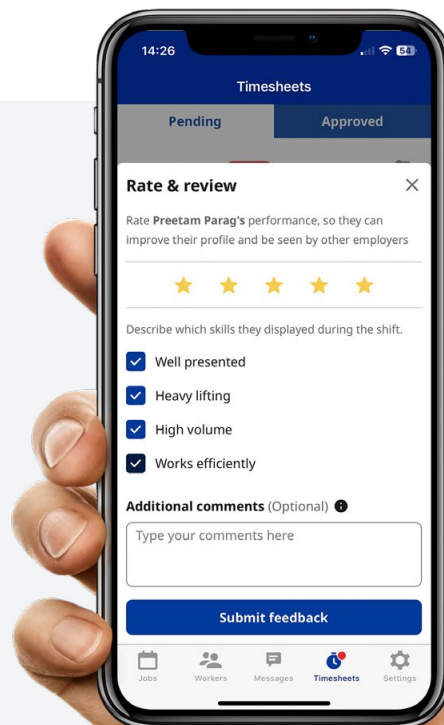

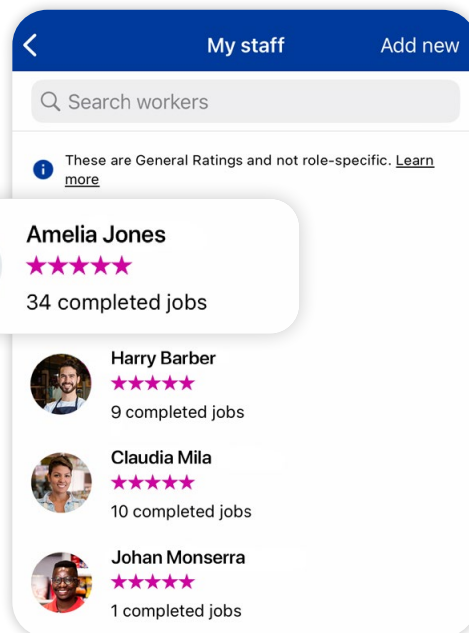

Rate & review

Rate Preetam Parag's performance, so they can improve their profile and be seen by other employers

Describe which skills they displayed during the shift.

- ☒ Well presented
- ☒ Heavy lifting
- ☒ High volume
- ☒ Works efficiently
