

Let Flex do the Work

Staffing on autopilot

Let Flex do the Work uses smart-matching technology to automatically offer shifts to your most suitable workers first. It's the faster, smarter way to manage your roster - helping you fill roles in record time without having to hand-pick every worker.

Take a look at the demo to see **Let Flex do the Work** in action → wInt.io/s/gF4rqH

Why use Let Flex do the Work?

Feature	Benefit
Automated shift filling	Get shifts filled while you focus on operations
Smart-tiering	Your 5-star and previous workers are always invited first
Zero-touch scheduling	No more scrolling through profiles or sending individual invites
Marketplace scale	Automatically tap into a massive pool of qualified Flexers
Integrated cascading	Agency partners are engaged automatically if needed

How it works

- 1. Post your shift:** post your job as normal in the Flex portal and select Let Flex do the Work.
- 2. Favourites are prioritised:** we instantly alert your 5-star rated workers and those who have previously worked at your venue.
- 3. Marketplace expansion:** if your regulars are busy, the system expands the offer to the wider pool of qualified Flexers in the marketplace.
- 4. Intelligent backup:** If additional coverage is needed, the system can automatically cascade to your approved agency partners, ensuring shifts have the best chance of being filled.

Post once, Flex handles the rest

By utilising the full power of our marketplace technology, you get faster filling, higher worker quality, and less manual admin. Offers automatically increase as shift time approaches

- **10+ days** → every 120 mins
- **7-10 days** → every 30 mins
- **1-7 days** → every 30 mins
- **6-24 hrs** → every 5 mins
- **<6 hrs** → 250 workers / 5 mins
