

Using Indeed Flex to boost efficiency and quality

Your employees represent your business and are responsible for helping you reach your goals. At Indeed Flex we understand the importance of finding the right worker for your business.

During our onboarding process, all Flexers go through 1-to-1 interviews before being verified on the platform. Then, our platform leverages advanced technology and a wealth of user-friendly features to connect you with Flexers who are best-suited to your job requirements.

Providing quality candidates

Smart-matching algorithm:

To ensure you reach the Flexers you're looking for, with the required skills, when you need them.

Worker profiles and visibility:

Easily scan through the Flexer's verified skills, experience, location, and time availability.

Instant job posting and skill selection:

Post a job in under 5 minutes with your required worker skills and certification needs.

Different options when offering jobs:

Giving you as much or as little control over who you offer your jobs to, through our dynamic job offer options.

Worker benefits:

Key perks and rewards available to all Flexers, free of charge - keeping them motivated and loyal to you.

Reviewing and rating workers:

Make sure your favourite Flexers are the first to be offered your shifts when posting jobs.

Recruiting pre-vetted candidates:

Candidate profiles are built based on experience, location and time availability. This is verified, along with documentation, during a 1:1 interview with our Onboarding team.

Flex timesheets:

Ensure correct payments for workers and more accurate billing for your business with Indeed Flex timesheets.
