

Smarter hiring through Worker Profiles: Removing the need for a CV

Get instant access to the information you need for hiring decisions in one, digestible format. We've perfected the worker profile for easy screening to save you valuable time.

Over 55% of people admit to lying on their resume at least once according to a survey by StandOutCV.

How it works

Verified worker profiles clearly display the Flexer's skills, experience, location, and time availability. Their right-to-work documentation is confirmed by us before allowing them to get booked onto shifts.

You'll also be able to see previous ratings from other employers. This gives you ultimate visibility so you can decide whether a Flexer sounds like a good fit.

"The most impressive part is the quality of the [Flexers] that have worked here. They worked really well and were at the top end of the level of the people we've hired seasonally"

– Jonas Hodges, Warehouse Manager at Whole Earth Provision Co.

Benefits of Indeed Flex's Worker Profiles

Enhanced efficiency:

A deeper understanding of potential candidates streamlines the hiring process by minimising the time spent on interviewing.

Lower staff turnover:

You're more likely to be picking the right worker with the right skills for your business, leading to lower staff turnover.

Precise skill match:

Worker profiles enhance the alignment between the job requirements and the skills of the potential candidate.

Direct access:

The verified worker profiles brings everything you need to know about the worker directly to you, giving you more security in hiring.

Empowered decision-making:

Worker profiles provide comprehensive insights about candidates, grounding your hiring decisions in skills, experience and qualifications.

Personalised engagement:

Knowledge of a worker's background allows you to tailor your approach or communication when reaching out.
